

Improve Manufacturing Safety & Productivity with 360° remote collaboration

Avatour makes it easy to inspect, explore, and monitor manufacturing facilities from anywhere in the world

Supplier Compliance Audits

Reduce travel cost and downtime with virtual audit technology. Explore a facility or process and interact with employees both virtually and on site.

Remote Selling Tours

Bring customers directly on site to make informed buying decisions about your facilities and processes.

Safety Training & Method Transfer

Keep sites and people secure with the ability to conduct real-time 360° site training.

Reimagine your operations with the unique benefits of 360° Remote Collaboration Technology:

Save Money

Save Time

Save Our Planet

The Avatour Advantage

Revolutionize remote visits with the power of the full picture and the freedom to choose your point of view.

The Avatour platform allows remote participants to experience the context of a real place, while interacting in real time with the people there. Visit your facilities, bring stakeholders on site, and connect people to places **in real time – no matter where you are – with the unique power of 360° technology.**

"Avatour offers us a new dimension of digitization in the contract logistics business. It is essential for us and our operations to stay close to our customers!"

Todd Starbuck
EVP Business Development
Solution Design and Customer Management
DB Schenker

360° Session Recording
allows for better documentation, with the ability to return to the site and explore in 360°

Invite Up to 20 Guests
so you can bring the employees, remote experts, and stakeholders on site without travel

Viewer Autonomy
gives each individual the ability to feel physically present and choose their POV

WiFi and 5G/LTE Enabled
ensures better connectivity throughout the visits, especially in areas with poor WiFi
